

ELITE NEWS

ENGLAND'S BIGGEST TRIUMPH AGENTS

WORLDWIDE MAIL ORDER SUCCESS

This is the first issue of Elite News designed to tell you a little about the company.

SINCE ELITE MOTORS' mail order division was started it has been steadily and fairly rapidly growing in size ever since. The division now exports to more than 20 countries as well as covering the U.K., and it's everything from a nut and bolt to complete motorcycles.

In the modern world, where most people don't have enough time to spare, mail order is a convenient way of buying without the inconvenience of travelling, and in most cases it's a good deal quicker. You can order by post with complete confidence; whether you want spares, clothing, or a complete motorcycle, Elite's are the obvious first choice, because of their experience. This in itself can save you time and money — if you've got any questions about buying by post, ring 01 673
